West Jordan Names ChamberWest as City’s Official Chamber of Commerce

WEST JORDAN, UT – The West Jordan City Council recently entered into a $10,000 service agreement with ChamberWest recognizing them as the city’s official chamber of commerce. The new membership saves the city $38,000 per year and gives the city membership in a larger chamber of commerce with a regional presence.

“We look forward to working with ChamberWest to promote West Jordan’s business culture and a positive business environment,” Mayor Jim Riding said. “ChamberWest is well respected and knows how to work effectively and develop productive partnerships with the business community and civic and political leaders.”

ChamberWest is a regional chamber that serves 350,000 individuals and is available to serve approximately 9,000 businesses that operate in West Jordan, Taylorsville, West Valley City and Kearns. The ChamberWest agreement includes a Shop Local partnership, strategies to foster a successful business environment, access to ChamberWest's influential Legislative Affairs Committee, and more.

“We believe partnerships and collaboration between businesses, community members, and civic leaders are key to strengthening our region,” ChamberWest President Barbara Riddle said. “We offer strong programs benefiting businesses of all sizes as they work to strengthen the business community, represent the interest of business with government, promote the community, build business relationships, and engage in political action.”

In August 2018, the City Council requested the Economic Development Department reevaluate the city’s chamber service agreement. As a result, the city drafted a request for proposal aimed to maximize public funds and look at the city’s economic goals. After going through the RFP/bid process, ChamberWest was selected as the official chamber of commerce on Jan. 9.
